OPENING SAFETY STORY OR VALUE STORY

(A Safety Story encompasses mitigating risk in any area of the organization. A Value Story demonstrates the delivery of a high quality, cost effective experience to our patients, vendor partners, and community.)

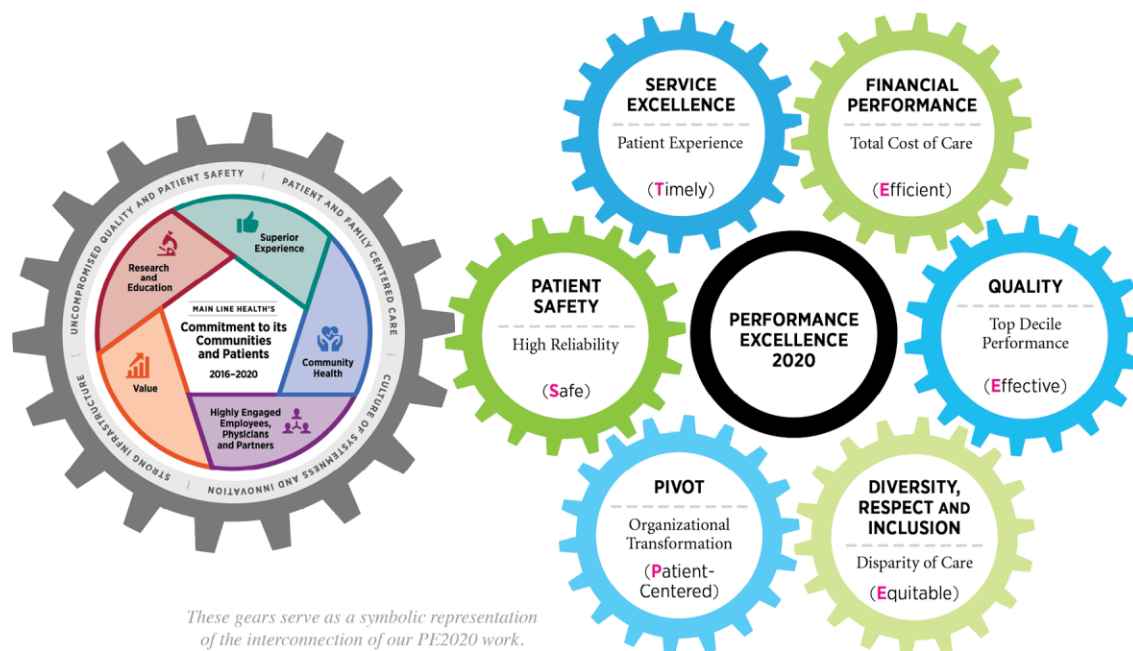

A LOOK AT THE BIG PICTURE—TODAY'S TOPIC:

Art Ability at Bryn Mawr Rehab Hospital – Contributed by
Gaby Heit, Art Ability curator at Bryn Mawr Rehab

Why it is important: Art Ability at Bryn Mawr Rehab is a year-long program which serves as a showcase for, and celebration of, artists with disabilities. It focuses our appreciation not on the artists' disabilities but, rather, on their astounding artistic abilities.

How it fits with Performance Excellence: The Art Ability Exhibition and Sale stands out as a unique forum for artists with disabilities worldwide. We provide exhibitions, community outreach and educational programs and a corporate art acquisition program through Art Ability. Bryn Mawr Rehab also purchases artwork for its Permanent Art Collection Program, and artwork is incorporated into therapy sessions. Art Ability supports Main Line Health's commitment to diversity, respect and inclusion by advocating on behalf of artists with disabilities by advancing their artistic and financial success.

How everyone can be involved: The 2018 exhibition opens on November 3 with a preview party and artwork can be viewed at BMRH from November 4, 2018 through January 27, 2019 from 9 am – 9 pm. To learn more and purchase tickets to the preview party, go to:
mainlinehealth.org/artability.

These gears serve as a symbolic representation of the interconnection of our PE2020 work.

(The PE2020 “gears” graphic is built on the National Academy of Medicine’s STEEP principles for health care.)
